ATLANTA PRIDE STRATEGIC PLAN

2016-2020
ORGANIZATIONAL HISTORY

In the early morning hours of June 28, 1969, the Stonewall Inn was raided by police in New York City. Fed up with the abuse and harassment, the patrons of the bar fought back and a series of riots and demonstrations ensued that lasted for days. These demonstrations, known as the Stonewall Riots or Stonewall Rebellion, gave birth to what many consider to be the modern LGBTQ rights movement in the US and around the globe. In June 1970, a group of Atlantans gathered in Piedmont Park to distribute literature about the treatment of LGBTQ people in our city; an action that grew into a march planned for June 1971. From these roots, Atlanta Pride was born, both as an organization (which grew out of the Georgia Gay Liberation Front) and a festival.

In 1991, the Atlanta Lesbian and Gay Pride Committee was formed. In 1995, the name was changed to Atlanta Pride Committee (APC). APC currently exists as a 501c3 nonprofit organization registered in the State of Georgia. In the past, our programmatic offerings were solely centered around the annual Atlanta Pride Festival, which grew from a parade to a small festival and then to the largest parade in the City of Atlanta and one of the largest Pride festivals in the United States. While the festival is still our best-known event, APC has expanded our scope and outreach to include year-round programming to connect with the community in a variety of ways that compliment the mission of the organization and the reach of our signature event.

APC membership requires both payment of annual dues and hands-on volunteer work within the organization. Currently, APC membership stands at 43 people. And it is from these members that both our Board of Directors and Events and Festival Committees are drawn. Our Board of Directors is currently at full complement with 11 members. The Festival Committee is comprised of volunteers who work all year to plan for the annual Atlanta Pride Festival and the Events Committee are the volunteers who plan our year-round events calendar. We work with many LGBTQ (Lesbian, Gay, Bisexual, Transgender and Queer) and progressive nonprofit organizations and community partners to advance our mission.

OUR VISION

We envision a world where persons with widely diverse gender and sexual identities are united, visible, and equal.

OUR PURPOSE

The main purpose of the Atlanta Pride Committee, a 501(c)(3) organization, is to advance unity, visibility and self-esteem among lesbians, gay men, bisexuals, transgender and queer (LGBTQ) persons and to promote a positive image of LGBTQ people in the Atlanta area and throughout the Southeastern United States through community activities and services.

OUR MISSION

The mission of the Atlanta Pride Committee is to advance unity, visibility, and wellness among persons with widely diverse gender and sexual identities through cultural, social, political, and educational programs and activities.

OUR VALUES

We value social justice, culture, self-esteem, history, health and wellness.
OUR UNIQUE VALUE PROPOSITION

We are one of the largest free Pride festivals in the US and are committed to keeping our events and programs free to the public for as long as possible in order for Atlanta Pride events to be able to be enjoyed by all individuals, regardless of income.

OUR CLIENTS and GEOGRAPHIC SERVICE AREA

We focus our activities and efforts to address and connect with those who live and work firstly in Atlanta, Georgia; secondly across the State of Georgia; and thirdly across the Southeastern United States.

WHY ATLANTA PRIDE MATTERS

For a very long time, the dominant social and cultural paradigm has made LGBTQ people feel like they are second class citizens. Additionally, LGBTQ people often experience disenfranchisement from their own LGBTQ community because of differences in socio-economic class, race, gender identity, sero status, sexual orientation, and a number of other factors.

In an effort to combat the isolation LGBTQ people can feel in our society, Atlanta Pride acts as an agent for visibility for the LGBTQ community, planning a variety of events to develop various facets of individual and community growth, including an annual festival in October and a series of events in June to celebrate Stonewall Month. All of these opportunities exist to give LGBTQ people the chance to connect with organizations, businesses, and other like-minded individuals who are accepting of the whole person, regardless of their sexual orientation and gender identity.

By connecting LGBTQ people with accepting parts of the community, it is likely that self-esteem and acceptance will rise in direct proportion to how LGBTQ individuals feel about themselves and the world around them.

TRENDS & DEVELOPMENTS

We recognize the following as major trends or developments which could have a significant impact on our organization over the next 1-3 years:

1) The rebounding economy is resulting in sponsors and individual donors slowly coming back after years away from the organization.

2) The number of LGBTQ elders and seniors is increasing as Baby Boomers age which means that the needs and wants of a large section of our consumers are shifting.

3) Legal equality is advancing in the US for LGBTQ people causing many individuals and organizations to ask “Are Pride organizations and events still relevant and necessary?”
2016-2020 STRATEGIC IMPACT METRICS

The following are the primary metrics we will use to measure realization of our mission:

- Number of Festival attendees annually
- Number of annual attendees at PRIDE-sponsored year-round programs and events
- Number of formal \(^1\) participation with LGBTQ partner organizations
- Number of formal participation with non-LGBTQ partners in social change events
- Number of partnerships with organizations that primarily serve communities of color

\(^1\) Formal partnerships are those that are defined by documents that describe the roles and responsibilities of each party to the agreement. This might be as simple as a Letter of Understanding between the parties. As such, mere attendance by PRIDE representatives at an event would not count as a formal partnership.
